

Shared Strength

Model for learning and collaboration

01

EXCHANGE

- As we work and collaborate across our schools are we open to giving and receiving?
- Be open to the interchange of benefits, resources, or actions during the tours.
- What can we give each other and what can we gain?

02

INFLUENCE

- How can our schools continue to be influenced or influence others?
- Through our work, our processes and/or outcomes of our collaboration during the tours, what can we learn as a result of being influenced?
- What informed your professional, social, and environmental growth?

03

GENERATE

- Collectively, how can we produce something novel in our system, together, that would not otherwise exist.
- How will we evolve our practice and/or systems?
- How can we co-create and transform?
- How will this experience extend beyond the initial focus and how will we evolve our practice and/or systems?
